Political science is the systematic study of politics and government. It is a social science that seeks to explain how political systems work, how political decisions are made, and how political power is distributed and used.

Intro to Politics & Government is a fundamental course for students who wish to understand the workings of the political world. This course provides an overview of the major concepts, theories, and institutions of politics and government. It also examines the different ways in which these concepts and theories can be applied to real-world political events.

Course Overview:

Intro to Politics & Government typically covers the following topics:

- **What is politics?** This topic explores the definition of politics, the different types of political systems, and the role of politics in society.
- **Political theory** This topic examines the major political theories, such as liberalism, conservatism, socialism, and anarchism.
- **International relations** This topic examines the interactions between states, including the causes of war and peace, the role of international organizations, and the challenges of globalization.
- **Comparative politics** This topic compares different political systems around the world, examining their similarities and differences.
- **Public policy** This topic examines the process of making and implementing public policy, including the role of government, interest groups, and the public.

Learning Objectives:

Upon completion of Intro to Politics & Government, students should be able to:

- Define politics and explain its role in society.
- Identify and describe the major political theories.
- Analyze the causes of war and peace, and the role of international organizations.
- Compare different political systems around the world.

- Explain the process of making and implementing public policy.

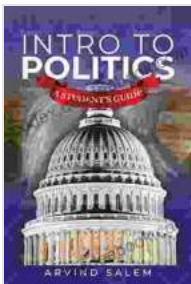

Assessment:

Students in Intro to Politics & Government are typically assessed through a combination of:

- Exams
- Papers
- Presentations
- Participation

:

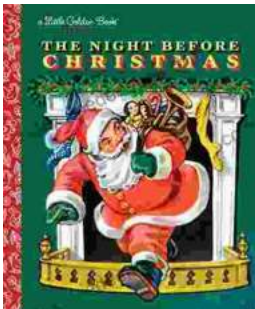

Intro to Politics & Government is a fundamental course for students who wish to understand the workings of the political world. This course provides an overview of the major concepts, theories, and institutions of politics and government. It also examines the different ways in which these concepts and theories can be applied to real-world political events. By taking this course, students will gain a deeper understanding of politics and its role in society.
