The Nissan Pulsar GTi is a compact hatchback that has been produced by Nissan since 1978. The car has undergone several changes and updates over the years, with the latest model being released in 2018. This article will take a closer look at the new changes that have been made to the Nissan Pulsar GTi, including its design, performance, and features.

Design

The Nissan Pulsar GTi has received a number of design changes for the 2018 model year. The most noticeable change is the new front fascia, which features a wider grille and more aggressive headlights. The car also has new side skirts and a rear spoiler, which give it a more sporty appearance.

Overall, the new design of the Nissan Pulsar GTi is more aggressive and sporty than the previous model. The car has a wider stance and a lower roofline, which gives it a more planted and purposeful appearance.

Performance

The Nissan Pulsar GTi is powered by a 1.6-liter turbocharged four-cylinder engine that produces 190 horsepower and 240 lb-ft of torque. This engine is mated to a six-speed manual transmission or a continuously variable transmission (CVT).

The Nissan Pulsar GTi is capable of accelerating from 0 to 60 mph in 7.5 seconds and has a top speed of 140 mph. The car also has a number of performance-enhancing features, such as a sport-tuned suspension and Brembo brakes.

Features

The Nissan Pulsar GTi comes standard with a number of features, including:

* 18-inch alloy wheels * Sport-tuned suspension * Brembo brakes *
Leather-wrapped steering wheel * Heated front seats * Dual-zone climate
control * NissanConnect infotainment system

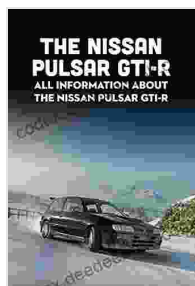

The Nissan Pulsar GTi is also available with a number of optional features, such as:

* Sunroof * Navigation system * Bose premium audio system * Safety
Shield 360 suite of safety features

Price

The Nissan Pulsar GTi has a starting price of \$23,500. The car is available in three trim levels: S, SV, and SL. The S trim level comes standard with the 1.6-liter turbocharged four-cylinder engine and a six-speed manual transmission. The SV trim level adds a number of features, such as a CVT, leather-wrapped steering wheel, and heated front seats. The SL trim level adds even more features, such as a sunroof, navigation system, and Bose premium audio system.

The Nissan Pulsar GTi is a compact hatchback that offers a lot of performance and features for the price. The car has a sporty design, a powerful engine, and a number of standard and optional features. The Nissan Pulsar GTi is a great choice for drivers who are looking for a fun and affordable car to drive.
